## Initial settings

## We recommend you program your telephone system before use.

The following are a few examples of common features to set before using the telephone. Refer to the Handset and telephone base settings and Answering **system settings** in the Abridged user's manual or the online Complete user's manual for detailed instructions on setting all telephone features.

#### Set date/time

Set the date/time before using the answering system.

Using a cordless handset or the telephone base:

- MENU -> ▼ or ▲ -> Set date/time -> SELECT.
- 2. Enter the month, day and year using the dialing keys -> **SELECT**.
- 3. Enter the hour and minute using the dialing keys.
- 4. ▼ or ▲ to choose AM or PM -> SELECT.

## Record your own announcement

Your outgoing announcement plays when calls are answered by the answering system. You can use the preset announcement to answer calls, or replace it with your own recorded announcement.

## Using a cordless handset or the telephone base:

## Answering system

## About answering system and voicemail

Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider's voicemail. To listen to messages recorded on the built-in answering system, refer to the **Message playback** section on the next page; to listen to voicemail, contact your telephone service provider for more information.

## Turn answering system on/off

The answering system must be turned on to answer and record messages.

Using a cordless handset:

- 1. MENU.
